School Delivery September-May

*Exception - Nashwauk-Keewatin School District receives delivery year round.
The seven multicounty, multitype library systems provide critical links between the academic, public, school, and special libraries in the state. Each multitype system responds to the needs of the libraries in its region by providing support services. Key areas in which these systems provide efficient, cost-effective services include consulting, communications, sharing of resources across all types of libraries, ongoing opportunities for professional and staff development, and assistance with strategic planning.
